INTRODUCING YOUR VERY OWN

# Business Website Checklist

## **The Secret Sauce of Success: Launching a Website that Wows**

Building a website goes beyond just the technical aspects. It's about creating a branded and powerful marketing tool that attracts customers. This guide unveils the steps you need to take to launch a website that's both beautiful and effective!

## BRANDING

Don't underestimate the power of your brand! It's the unique personality that sets you apart. To capture that essence before design begins, you can use mood boards – a collection of inspiring colors, patterns, and photos. Platforms like Pinterest are perfect for gathering visuals, or use Canva to upload your own clippings and build a board directly. This simple step solidifies your brand's identity, ensuring your website design reflects your unique personality right from the start

- ☐ IDENTIFY CORE CUSTOMER
- ☐ LOGO
- ☐ COLORS
- ☐ CUSTOM PATTERNS
- ☐ CUSTOM ICONS
- ☐ FONTS

## COPYWRITING

Make your website content sing with your brand's voice! Keep it short and sweet, like 1-3 sentence paragraphs with bolded key points. Think of your ideal customers and write directly to their needs – are they formal, fun, or cutting-edge? Match that tone!

- ☐ DEFINE YOUR BRAND'S VOICE
- ☐ TAGLINE/MISSION
- ☐ COLORS
- ☐ ABOUT YOUR BUSINESS
- ☐ BRIEF PARAGRAPHS

# PAGES

Forget complex menus! Simple websites are in. Plan just a few key pages to tell your brand story, showcase your services clearly, and offer easy contact options. A user-friendly 404 page (error page) helps lost visitors find their way back. Remember, less is more for a website that navigates easily!

- ☐ ABOUT PAGE
- ☐ SERVICES
- ☐ GALLERY OR WORK SAMPLES
- ☐ BLOG
- ☐ TESTIMONIALS
- ☐ INFOGRAPHICS
- ☐ CONTACT INFO
- ☐ 404 NOT FOUND PAGE

# MAILING LIST

Grow a loyal following with email marketing! Sign up for an email service (like Mailchimp), connect it to your website, and offer a valuable business-related freebie (think industry report or discount!) People love FREE stuff, so sprinkle signup forms around your website to capture those leads and start promoting your business directly to their inboxes!

- ☐ EMAILING MARKETING ACCOUNT
- ☐ EMAIL MARKETING INTEGRATION INTO WEBSITE
- ☐ OPT-IN GIFT
- ☐ CALL TO ACTION

# SEO

SEO helps search engines like Google find your website. Here's the tip: find relevant keywords and tags throughout your website to boost your search ranking and get discovered by more potential customers.

- ☐ PAGE TITLE & DESCRIPTION
- ☐ URL SLUGS
- ☐ IMAGE NAMES
- ☐ ALT TAGS
- ☐ HEADING TAGS
- ☐ TURN ON HTTPS

# MARKETING

Your website can be a marketing powerhouse! Consider a blog with consistent updates (weekly or monthly) to keep visitors engaged. Share your content on social media (like Pinterest) with branded visuals for maximum impact. Finally, link your social media accounts directly to your website, making it easy for visitors to follow you and convert to customers!

- ☐ BLOG
- ☐ SOCIAL MEDIA INTEGRATION
- ☐ SOCIAL MEDIA BRANDING

# ANALYTICS

Website analytics show how visitors interact with your site. See which blog posts are hits and write more like them. Discover keywords people use to find you and tailor your message for even better results

- ☐ INTEGRATE GOOGLE ANALYTICS
- ☐ IDENTIFY YOUR KEY STATISTICS

# LAUNCH

Fantastic job! It's a long list to get through, but now you're 99% ahead of the rest!

CONGRATULATIONS!  
You have now completed all the  
recommended checklists
